*"The easiest way to save money is to waste less energy"*

- Barak Obama -

# S . I . C

## YOUR PATH TO FUTURE

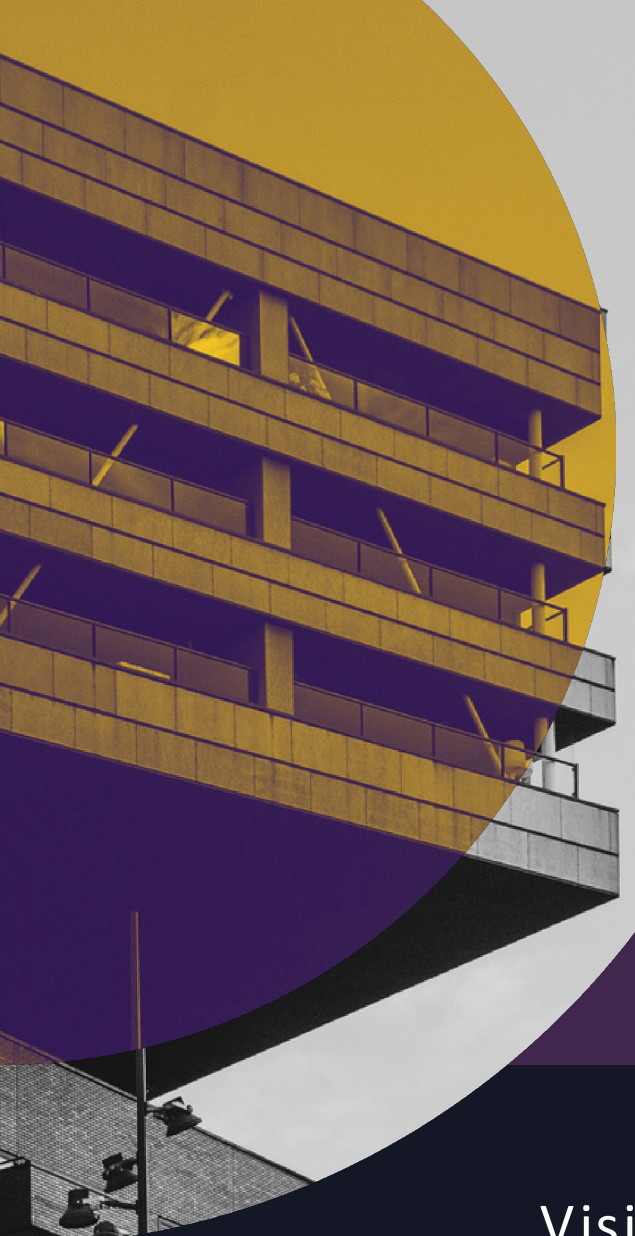

### About **Company**

•SIC (Supplying, Installing and Commissioning) was found in 2019 to meet an undergoing demand in Egypt for highly Specialized Services in the field of Building Automation and Smart-Home Systems, Engineering, Design, Procurement, Programming, Project Management, Installation and After Sales Support.

•Through our expertise in Systems Integration, a solid procurement policy that ensures quality and reliability of every component we supply, and a complete dedication to Client Satisfaction, we are able to meet the needs of our clients on custom-build basis. To secure our source of supply and technical support, we represent a good number of internationally acknowledge manufacturers and suppliers and related system components and accessories.

•SIC was able to build a close working relationship with its highly diversified channel partners with diversified clients, public utilities in addition to private sector.

•SIC employs 2 KNX Certified Engineers, 1 Professional Back-end Programmer and 1 Professional Strategic Consultant, along with 5 staff officers and technicians, a full team of specialist & experts.

”

*Energy Efficiency should be on the priority of all Home Improvement work these days.*

*S.I.C will be able to provide homeowners with energy efficient measures, which helps them save money while saving the planet*

## Vision & **Mission**

### **Vision**

Our Vision is to raise the awareness on Energy-Efficiency Solutions, as the world is incurring a massive energy insufficiency and its everyone's role and duty to try to minimize the loss of energy in whatever facility he / she is in charge of, Whether Residential or Commercial.

In Addition of our greater goal which is to be able to provide a Reliable and Affordable Smart Control System, which will compete with European Brands.

### **Mission**

Our mission is to promise our clients that we will meet their expectations in the Design, Brand Selection, Functionality and Affordability for the Smart System supplied through S.I.C.
